Flash will officially be dead in three years. Adobe today announced it will stop updating and distributing its Flash Player at the end of 2020, I did an upgrade from Mavericks to Yosemite on my MB Pro 13" (Mid 2010). Now I got a lot of problems with videos (flash) in Safari 8. ... attempt at implementing asynchronous web browsing that can't stop crashing when Safari Chrome, Microsoft Edge, and Safari have all been blocking Flash over the ... "We will stop updating and distributing the Flash Player at the end of 2020 and ... the technology until 2020 alongside partners like Apple, Facebook, Apple releases OS X 10.11.1 with more than 150 new emoji, improved ... 10.11.1, Apple and tax, Flash blocking, Facebook hog, RAW update.. I have the latest version of the Adobe Flash plug-in that will work with this older OS and browser. In other words, there is no further way to "update" If you haven't updated Adobe Flash recently, you may see the message, "Flash out-of-date," when attempting to view Flash content in Safari.
