Windows 7 64bit 64bit This is an installer in English that may install Windows and some third-party software. It comes with the official software package. Once you begin the installation process of the program, click Install to install updates and support applications. When you finish the install operation, follow the onscreen instructions to install the updates. After you finish installing the program, follow the steps indicated. If the Windows installation or updates fail, please contact your system technical support provider. Microsoft provides this software free of charge. After you install the software, you will be asked to close all running applications and to restart your computer. You will be prompted to restart the system before installation finishes. If some products include a copy of Microsoft or Adobe ActiveX control panels installed, this installation may not complete. It may take up to 5 minutes, or your computer may not begin to boot properly. If you experience any issues during installation, please contact your system technical support provider. If you have other questions about this or that product, please contact IT support..
